MISCANTHUS:
长芒草：

长芒草对土壤的适应性很广，黏土、壤土、轻质沙土都可正常生长，耐贫瘠土壤，长芒草耐旱性也很强。在职场上，我们也需要拥有长芒草的韧性，不管环境如何变幻，也能有进步的动力，在困难中磨练耐性，耐心等待丰收的一天。

Miscanthus has a wide range of adaptability to soil. Clay, loam and light sandy soil can grow normally, and it is resistant to poor soil. Miscanthus is also very resistant to drought. In the workplace, we also need to have the resilience of long miscanthus, no matter how the environment changes, we can also have the motivation to improve, hone our patience in difficulties, and wait patiently for a harvest day.

TANDEM SYSTEM

串联走线（选配）

Series system: A main line is connected to male connector, female connector, adapter and office socket to form a set of office power supply series system, which solves the problem of power supply installation in multiple working positions. The connector adopts direct plug connection, no professional electrician Electricity, efficient installation, greatly improve efficiency.

串联系统：一根主线对接公头、对接母头、转接头和办公插座共同组成一套办公电源串联系统，解决多个工作位电源的安装问题，对接头采用直插连接方式，无需专业电工配电，高效安装，大大提升效率。
